

HERITAGE WALKING ROUTE

This is a fascinating self-guided walking route featuring over 40 properties, which is an ongoing project for the Trust. Signs give information about the heritage features of each property and there are QR codes on some signs to enable you to access more information.

We are regularly adding more information about selected properties on the Walk, and encouraging people to submit history about Greytown properties where they currently live or have lived in the past.

At right are some highlights of the Heritage Walk. See the complete Walk and all properties at www.greytownheritagetrust.co.nz. You can pick up a map of the full route from the Greytown i-SITE or Cobblestones Museum.

Make sure you also check out our two new heritage cycle routes.
